

ROBERT R. AUSTIN, INC.

INTERNATIONAL BUSINESS DEVELOPMENT,
MARKETING, SALES AND MANAGEMENT SERVICES

Welcome...

Robert R. Austin, Inc. has performed international business development, marketing, sales and management services in over 65 countries. Robert R. Austin's business consulting, strategic marketing and direct sales services have been provided for a diversified group of companies seeking to expand their customer base. Robert R. Austin's clients include both United States and foreign based companies seeking profitable growth through expansion of their domestic, international and/or world trade business.

Robert R. Austin can serve as a business development representative for its clients and make the initial "cold call" to contacts with potential customers for our clients. Sales development calls are then continued on a timely basis with our client's prospective customers. Robert R. Austin has been described by its clients as being a company that can prepare the business strategic marketing plan and then go implement the plan by making direct business development and sales contacts with the new customer base.

Robert R. Austin, Inc. was first established in May 1980, as a Texas Corporation. Its principal office is located in Houston, Texas. Its founder, Robert R. Austin, is a Registered Professional Engineer with over 35 years of executive management experience in areas including international business development, marketing and sales; business operations, management and administration; engineering design and project management; and new product development and product manufacturing.

News Release

Robert R. Austin is very pleased to announce that AMOG Consulting based in Melbourne, Australia has retained Robert R. Austin to perform business development, marketing and sales services. AMOG Consulting specializes in providing engineering services for the offshore oil & gas industry including deepwater. AMOG's focus is on providing research studies including model development, naval architecture, Pre-FEED and Feed for offshore vessel mooring systems, risers, subsea pipelines, flowlines and umbilicals. Studies also performed associated with the evaluation and selection of floating production, storage and offloading vessels. Read more here: <http://www.amog.com.au>

Robert R. Austin is very pleased to announce that Penspen, Inc. of the international Penspen Group including Andrew Palmer & Associates has retained Austin to perform business development, marketing and sales services. Penspen with corporate headquarters in London, England has provided engineering and management services to the international pipeline and oil and gas industries for over 45 years. With a total of over 5000 projects performed, Penspen has undertaken projects in almost every country in the world. Penspen has tackled almost every conceivable challenge from the economic evaluation of pipelines in developing nations to complex integrated design and construct contracts to limit-state design of pipelines in deep water.
